## SEEK • FIND • LIVE

**Life is a journey of hope and courage.** Hope must be inspired. Courage must be stirred. The spark of hope exists in us all. No matter what we are facing, the situation is not hopeless. But hope alone is not enough. We need courage. Courage to take the next step. Courage to move forward.

**Our journey is not about any single cure.** It is not about any single tragedy. It is not about any single cause. This journey is about inspiring *hope*. *Hope* in a God that cares about us as individuals...helping us to conquer the mountains. Our journey is about stirring courage in others. *Courage* to go one more mile in spite of wounds and challenges.

**The Journey is not about time or distance.** This is about having as much contact with people as possible. Events are planned along the way at host communities. Day to day riding allows time to meet people. Everyday is an opportunity to make a difference. *It's not about the miles. It's about the message.*

Hope and Courage Across America is an outreach program of  
Bob Mortimer Motivational Ministries a non-profit organization. Phone: 253.851.2589
